Happy campers?

Happy days camping at the Jimmy's Beach Caravan Park maybe about to change for the worse.

The Great Lakes Shire Council is planning big changes for the Park that could result in higher costs for all users including young families.

We'd all like to see the Park facilities upgraded, but the costs could mean many families won't be able to afford to holiday here.

Could you afford to rent a cabin which could be the equivalent of renting a house in Hawks Nest?
